

AURA electric

Free standing convector AURA electric is a combination of a traditional free standing convector with 24 V axial fans. This combination quarantees the best solution for low temperature gradient, such as heat pumps. The combination of 1mm galvanized steel casing together with the aluminum grille creates a modern look. The convector is available in various RAL colors.

dimension (in mm)

standard colours

^{*} custom colours upon request

material of the casing and legs

Casing is made from 1,0 mm galvanized steel, legs are made from 1,5 mm galvanized steel. It is not allowed to sit or stand on the convector.

material of the heat exchanger

Heat exhanger is made from copper pipes and aluminium lamellas. The diameter of the pipes is 15,9 mm with 0,4 mm of thickness. Endings are with 1/2" connections.

Right and left connection is possible, needs to be specified. In the standard delivery there is a hole for thermostatic head. If actuator will be used, side with the hole for the thermostatic head could be changed for the side without the hole, needs to be specified.

electricity connection

The 24 V EC fans are controlled by 0-10 V and are compatible with BMS. To connect the convector, you need a 24 V transformer and a 24 V thermostat with the possibility of 0-10 V control

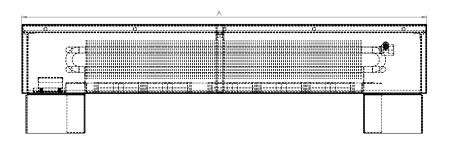

technical data

Max. operating pressure 10 bar, automatic air vent, tested in accordance with DIN EN 442.

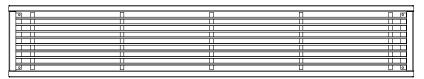

standard delivery accessories

Standing legs for finished floor, leg covers, which can hide watter connection pipes with screews and wall plugs.
